SAVINGS resulting from capacity manufacture are now offered to the buyer of the Studebaker Special-Six. The new price of \$1275 is \$200 under its former price.

Studebaker reductions became effective August 1st after Studebaker had completed the biggest seven-month run in its 70 years' history. And at a time when Studebaker had 15,000 unfilled orders on hand! It is a Studebaker policy of long standing to share manufacturing savings with the customer.

The performance, durability, comfort and quality of the Special-

Six are recognized everywhere. And here's new proof of its endurance: Studebaker's sales of repair parts, covering accidents as well as service, for the first seven months of 1922 were less than they were for the first seven months of 1919, in spite of the fact that 186,000 new cars were sold and put into operation since January 1, 1920.

The Special-Six at \$1275 represents a new standard of value—the greatest value Studebaker has ever offered, and that means a value that is positively unapproached anywhere in the industry.

Cowl lights; cowl ventilator; massive head lamps; torsion light with long extension cord; rain-proof, one-piece windshield; windshield wiper; eight day clock; theft-proof transmission lock; tool compartment in left front door.
